

QUALITY POLICY

CETL/QMS/QP/001

CORPORATE QUALITY POLICY

CHAAD Engineering and Technical Services Limited (CHAAD E&T) is a Nigeria EPCIC Limited liability company, incorporated in 2018 with registration number RC 148924.

CHAAD E&T is an EPCIC Company that provides Engineering, Procurement, Construction, Installation, and Commissioning services for the energy industry in Nigeria.

CHAAD E&T recognizes that in today's competitive business environment, effective quality systems are essential in providing quality cost-effective services to our clients. We are totally committed to providing commercial and industrial services that comply fully with the expectation and specifications of our clients. Our range of services includes but are not limited to: Engineering Design and Project Management, Measurement and Instrumentation, Plant Automation and Control, Cathodic Protection and Corrosion Monitoring, Valve Refurbishment, Overhaul and Pressure Testing, Electrical and Lighting, Civil Engineering and Construction, Mechanical & Piping Engineering and Construction, Procurement, Offshore and Onshore Facility Turn Around Maintenance (TAM) Works.

To achieve this, we have strategically established our Quality Policy as follows:

- ✓ **Continual improvement** of all its business-related processes in line with requirements of ISO 9001:2015 in order to achieve its strategic objectives and overall organizational performance optimization.
- ✓ **Establishment and implementation** of measurable quality objectives at the corporate and process levels.
- ✓ **Develop** and use qualified personnel, trained with the necessary skills and experience to perform their duties.
- ✓ **Effective implementation** of our organizational requirements i.e., its Management Systems and related processes and procedures.
- ✓ **Ensure Compliance** with contract, applicable statutory, legislative, and regulatory requirements in the delivery of services and products.
- ✓ **Ensure** that Quality Objectives and this Quality Policy are reviewed periodically or as the need arises for continuing suitability.
